ONE LOCK, ONE LIFE (Me vs Me)

Verse 1

Machines are breathing in the cold light
Midnight shift, but I'm not done tonight
The key feels heavy in my hand
One second more and it all could end

Time stands still, nobody speaks
I see more than steel and heat
I lock it down, not 'cause I'm told
But 'cause I know what responsibility holds

Pre-Chorus

One click of the lock, the noise goes quiet
No applause, no glory, just a line I won't deny

Chorus

I shut it down so you make it home
So no name ends up carved in stone
No shortcuts, no rolling dice
One lock, one life — that's the price
At the end of the shift it's me vs me
But every choice I make — it's about us

Verse 2

The clock keeps pushing, the pressure's loud
Someone says "hurry", but I don't bow
They don't feel the weight I carry here
When I turn the key and draw the line clear

I won't sell out for minutes saved
Or trade my ground for being brave
I set the line, I set it straight
'Cause I know what's really at stake

Pre-Chorus

One click of the lock, the truth stands tall
I don't walk on till I've covered all

Chorus

I shut it down so you make it home
So no name ends up carved in stone
No shortcuts, no rolling dice
One lock, one life — that's the price
At the end of the shift it's me vs me
But every choice I make — it's about us

Bridge

I kill the power before it kills a man
Carry the weight, do what I can
No luck, no fate, no alibi
Just one hard call — and I stand by

I stand alone when I turn that key
But I know what it means if it isn't me

Final Chorus

I shut it down so you make it home
So no name ends up carved in stone
No shortcuts, no rolling dice
One lock, one life — that's the price
At the end of the shift it's me vs me
Yeah, I stand alone — but it's about us

Outro

It ain't the lock, it ain't the steel
It's the line I won't cross, the truth I feel
Me vs me... till the work is done
I shut it down — so everyone goes home
